RADECS-2015 Chairman

Deputy director of the Branch of URSC – ISDE

Dr. Vasily Anashin

www.radecs2015.org

The International RADECS Association unites members of the European and National space agencies, scientific and research organizations, testing laboratories and manufacturers of special purpose systems, which work in the field of hardness control and assurance of electronic equipment of spacecrafts from space ionizing radiation

Each year more than 200 international companies take part in the RADECS Conference

The RADECS Conference structure

1. Short Course
2. Oral Sessions
3. Poster Session
4. Data Workshop
5. Industrial Exhibition
6. Social and Cultural Programs

Main benefits of the RADECS-2015 sponsorship

- Access to international information resources
- Direct contacts with manufacturers and consumers of electronic components for special purposes
- Access to the global service market for electronic component testing
- Drawing of attention of Russian and international experts to the company projects
- Opportunity to harmonize approaches to ensure the hardness of electronic components and parts in the space radiation environment
- Training a wide range of specialists in the format of thematic workshops
- Others
